Nurturing Children and Families

Building on the Legacy
of T. Berry Brazelton

**Edited by Barry M. Lester
and Joshua D. Sparrow**

This volume celebrates the work and influence of T. Berry Brazelton, one of the world's foremost pediatricians, by bringing together contributions from researchers and clinicians whose own pioneering work has been inspired by Brazelton's foundations in the field of child development.

August 2010 • 416 pages • 978-1-4051-9600-0 • HB • \$119.95

Brief Table of Contents:

Introduction

A Tribute to T. Berry Brazelton

Part I: A Scientific Revolution in Behavioral and Developmental Research

I. Changing Paradigms.

II. Advances in Understanding Fetal and Newborn Behavior.

III. Self-Regulatory and Relational Processes.

IV. Regression and Reorganization in Relational Models of Development.

V. Relational and Contextual Developmental Models.

VI. Neuroscience Perspectives on Relational and Developmental Models.

Part II: From Theory to Practice: Innovations in Clinical Intervention

VII. Preventive Interventions - Home visitation.

VIII. Early Interventions – the Care of Infants Born Pre-term.

IX. Infant Mental Health and the Treatment of Early Trauma.

Part III: Translational Science: Implications for Professional Development, Systems of Care, and Policy

X. Changing Practice and Improving Care through Professional Development.

XI. Innovating Change in Service Delivery, Systems of Care, and Policy.

XII. Changing Ways of Being.

Key Features:

- Includes contributions from experts influenced by the work of Brazelton – from a wide range of fields including pediatrics, psychology, nursing, early education, occupational therapy, and public policy
- Provides an overview of the field of child development, from the explosion of infant research in the 1960s to contemporary studies
- Outlines the achievements and influence of Brazelton and his lasting influence in continuing research, practice, and public policy

Barry M. Lester, Ph.D., is Professor of Psychiatry & Human Behavior and Professor of Pediatrics at the Warren Alpert Medical School of Brown University. He founded and serves as Director of the Center for the Study of Children at Risk at Brown Alpert Medical School and Women and Infants Hospital of Rhode Island.

Child psychiatrist **Joshua D. Sparrow**, M.D., is Director of Special Initiatives at the Brazelton Touchpoints Center and Assistant Professor in Psychiatry at the Harvard Medical School. He is co-author with T. B. Brazelton of nine books and a weekly New York Times syndicate column.
